## F2 - LECTURE EXAMPLE 5

Goodtime Ltd manufactures watches which it sells to wholesalers for \$25. The cost card for each watch is as follows:

|                               | \$    |
|-------------------------------|-------|
| Direct material               | 7     |
| Direct labour                 | 8     |
| Variable production overheads | 5     |
| Fixed production overheads    | 0.90  |
|                               | 20.90 |

There is also a variable selling cost per unit of \$0.50

|                                   | Year 1   | Year 2   |
|-----------------------------------|----------|----------|
|                                   | units    | Units    |
| Normal/budgeted production        | 12,000   | 12,000   |
| Actual production                 | 14,000   | 11,500   |
| Actual sales                      | 13,000   | 12,500   |
| Actual fixed production overheads | \$11,000 | \$11,000 |
| Actual fixed selling costs        | \$5,000  | \$5,000  |
|                                   |          |          |

There is no opening inventory. All variable costs were as per budget for the two years.

## Required

- (a) Calculate the total budgeted fixed production overhead.
- (b) Calculate the profit/(loss) under absorption costing for year 1 and year 2.
- (c) Calculate the profit/(loss) under marginal costing for year 1 and year 2.
